

QUV (and QCT) Space Saver Frames

QUV® space saver frames from Q-Lab help preserve space in crowded labs with multiple QUV test chambers. By allowing two QUV testers to be stacked, floor space efficiency is maximized.

Features and Benefits

- Saves valuable floorspace in crowded labs
- Anodized aluminum construction resists corrosion
- Compact design to allow for easy access to both units
- Leveling feet for uneven surfaces
- Two models for compatibility with all new and existing QUV testers

Stacking testers on the space saver frame allows easy access to both machines.

Description

Space saver frames are designed in two models for compatibility with virtually any combination of new and existing QUV testers. QCT testers on space saver frames require factory installation. Heavy-duty, anodized aluminum construction helps the space saver frame resist corrosion and keep its appearance identical to the QUV units. Leveling feet permit secure installation on uneven floor surfaces.

Model Types, Dimensions, and Shipping Weight

QUV space saver frames are available in two different models (Note: see instructions on next page to find the correct model).

1. Spray models require additional external plumbing boxes.

2. New, factory-installed QCT testers only. Requires top and bottom cycle timer boxes.

Instructions For Identifying The Correct Space Saver Frame Part Number

1. Select the appropriate space saver frame letter designation (A, B, C, D, E) from the Space Saver Frame Compatibility Matrix below by identifying the desired bottom and top configuration of your QUV (or QCT) testers.
2. Using the letter from Step 1, select the appropriate part number(s) in the Part Number Identification Table.

1. If there is only one QUV/spray unit, it should always be the bottom unit on the space saver frame.
2. Requires purchase of a standalone repurification system. Integrated repurification system cannot be reused.
3. For field retrofits of QUV/spray units with a new non-spray unit, space saver frame is shipped disassembled. Consult factory.
